MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

GENERAL INFORMATION

Requestor Name

Texas Health of Alliance

Respondent Name

Zurich American Insurance Co

MFDR Tracking Number

M4-15-0903-01

Carrier's Austin Representative

Box Number 19

MFDR Date Received

November 13, 2014

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "The correct allowable due is \$6,447.64, minus their payment of \$4,165.70 there is still an outstanding balance of \$2,281.94."

Amount in Dispute: \$2,281.94

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "The bill in question was escalated and the review has been finalized. Our bill audit Company has determined additional monies are owed in the amount of \$55.54."

Response Submitted by: Gallagher Bassett Services, Inc, 11940 Jollyville Rd, Suite 210-N, Austin, TX 78759

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
March 14, 2014	Outpatient Hospital Services	\$2,281.94	\$2,062.56

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403 sets out the fee guidelines for outpatient acute care hospital services.
3. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 97 – The benefit for this service is included in the payment allowance for another service/procedure that has already been adjudicated.
 - 16 – Claim/service lacks information or has submission/billing error(s) which is needed for adjudication
 - 193 – Original payment decision is being maintained

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?

3. Is the requestor entitled to reimbursement?

Findings

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables is not applicable.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code J7030 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 87070 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 87075 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 87205 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 29879 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. These services are classified under APC 0041, which, per OPPS Addendum A, has a payment rate of \$2,155.67. This amount multiplied by 60% yields an unadjusted labor-related amount of \$1,293.40. This amount multiplied by the annual wage index for this facility of 0.9437 yields an adjusted labor-related amount of \$1,220.58. The non-labor related portion is 40% of the APC rate or \$862.27. The sum of the labor and non-labor related amounts is \$2,082.85. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical service line with a status indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The new charge amount is used in place of the submitted charge amount in the line-item outlier calculation. This claim has a status indicator S or T line item with a billed charge less than \$1.01; therefore, all S and T line charges are reallocated accordingly. The APC payment for this service of \$2,082.85 divided by the sum of all S and T APC payments of \$3,124.28 gives an APC payment ratio for this line of 0.666666, multiplied by the sum of all S and T line charges of \$5,059.25, yields a new charge amount of \$3,372.83 for the purpose of outlier calculation. Per 42 Code of Federal Regulations §419.43(d) and Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if the total cost for a service exceeds 1.75 times the OPPS payment and also exceeds the annual fixed-dollar threshold of \$2,900, the outlier payment is 50% of the amount by which the cost exceeds 1.75 times the OPPS payment. The OPPS Facility-Specific Impacts file does not list a cost-to-charge ratio (CCR) for this provider. The requestor did not submit documentation of the facility CCR for consideration in this review. Per Medicare policy, when the provider's CCR cannot be determined, the CCR is estimated using the statewide average CCR as found in Medicare's OPPS Annual Policy Files. Medicare lists the Urban Texas 2014 Default CCR as 0.197. This ratio multiplied by the billed charge of \$3,372.83 yields a cost of \$664.45. The total cost of all packaged items is allocated proportionately across all separately paid OPPS services based on the percentage of the total APC payment. The APC payment for these services of \$2,082.85 divided by the sum of all APC payments is 66.67%. The sum of all packaged costs is \$4,523.67. The allocated portion of packaged costs is \$3,015.78. This amount added to the service cost yields a total cost of \$3,680.23. The cost of these services exceeds the annual fixed-dollar threshold of \$2,900. The amount by which the cost exceeds 1.75 times the OPPS payment is \$35.24. 50% of this amount is \$17.62. The total Medicare facility specific reimbursement amount for this line, including outlier payment, is \$2,100.47. This amount multiplied

by 200% yields a MAR of \$4,200.94.

- Procedure code 29876 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 50%. These services are classified under APC 0041, which, per OPPS Addendum A, has a payment rate of \$2,155.67. This amount multiplied by 60% yields an unadjusted labor-related amount of \$1,293.40. This amount multiplied by the annual wage index for this facility of 0.9437 yields an adjusted labor-related amount of \$1,220.58. The non-labor related portion is 40% of the APC rate or \$862.27. The sum of the labor and non-labor related amounts is \$2,082.85. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical service line with a status indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The new charge amount is used in place of the submitted charge amount in the line-item outlier calculation. This claim has a status indicator S or T line item with a billed charge less than \$1.01; therefore, all S and T line charges are reallocated accordingly. The APC payment for this service of \$1,041.43 divided by the sum of all S and T APC payments of \$3,124.28 gives an APC payment ratio for this line of 0.333334, multiplied by the sum of all S and T line charges of \$5,059.25, yields a new charge amount of \$1,686.42 for the purpose of outlier calculation. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line, including multiple-procedure discount, is \$1,041.43. This amount multiplied by 200% yields a MAR of \$2,082.86.
 - Procedure code J0171 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J1100 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J1170 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2250 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2270 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2405 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J3010 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
3. The total allowable reimbursement for the services in dispute is \$6,283.80. This amount less the amount previously paid by the insurance carrier of \$4,221.24 leaves an amount due to the requestor of \$2,062.56. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$2,062.56.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$2,062.56, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.

YOUR RIGHT TO APPEAL

Either party to this medical fee dispute has a right to seek review of this decision in accordance with 28 Texas Administrative Code §133.307, effective May 31, 2012, 37 *Texas Register* 3833, **applicable to disputes filed on or after June 1, 2012.**

A party seeking review must submit a **Request to Schedule a Benefit Review Conference to Appeal a Medical Fee Dispute Decision** (form **DWC045M**) in accordance with the instructions on the form. The request must be received by the Division within **twenty** days of your receipt of this decision. The request may be faxed, mailed or personally delivered to the Division using the contact information listed on the form or to the field office handling the claim.

The party seeking review of the MDR decision shall deliver a copy of the request to all other parties involved in the dispute at the same time the request is filed with the Division. **Please include a copy of the *Medical Fee Dispute Resolution Findings and Decision*** together with any other required information specified in 28 Texas Administrative Code §141.1(d).
